

Westminster Bridge Road

totalprotection.co.uk/project/westminster/

Client Name: Balfour Beatty / Urbanest

Completion Date: November 2015

Project Location: 199 Westminster Bridge Road, London SE1

Project Size: £1.3m

Total Protection secured the Landscape works package on this prestigious 19 story development on the South Bank not far from Westminster Bridge, the Thames and the Houses of Parliament. The development will provide a sought-after higher education student accommodation, as well as accommodating a new sixth-form college, a health suite with swimming pool and affordable office space.

The landscape package includes a roof garden on the third floor with planters, seating & paving, and at ground level a new park-like area with swale & natural stone finishes, bespoke concrete benches & timber seating.

Due to the location of the project, space & logistics were of paramount importance and we were happy to have achieved a successful outcome.
